

Proven Package™ PPI2

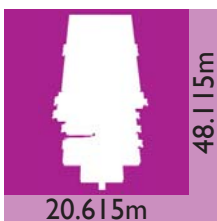

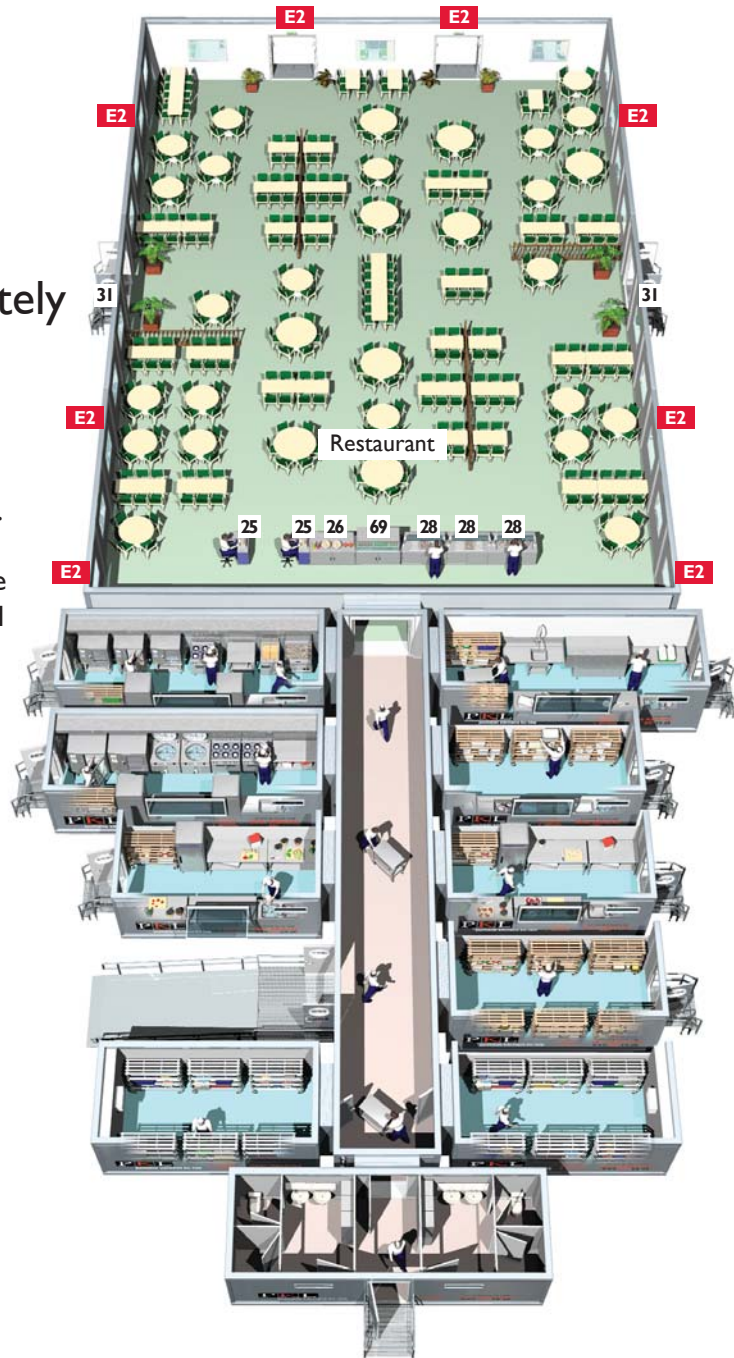

PPI2 will seat up to 360

PPI2 can house approximately 20 full-time kitchen staff.

In addition it can easily accommodate the extra staff needed for transporting the food from the kitchen out to the required location.

If your requirement is for a kitchen to provide several thousand meals, either for a prolonged period of time, or for a one-off large scale event, then **PPI2** will certainly meet your needs.

Add a 360 seater restaurant and you have a catering complex that can provide a comprehensive kitchen and dining area. This would be suitable for a thousand troops in a foreign location, a major construction site, a busy secondary school canteen or even a restaurant for athletes at a major event.

Equipment Key
